Welcome to TulQuest
This website is an interactive space for sharing linguistic questionnaires and elicitation stimuli.

The questionnaires are categorized according to Category (areal, metalinguistic, linguistic subfield, type of data, medium) and associated with metadata and contextual material (articles on the historical development of the questionnaire and critical review), as well as user comments.

You can search for and download questionnaires freely (and without registration) by using the menu to select a questionnaire by category or by entering a term in the Search box.

If you wish to deposit questionnaires with their metadata, or add revisions or comments, please register first. You will then be able to add content.

Under References you will find the references for manuals that can be useful for field linguistics.

Navigation: Home, Categories, Presentation, References, Contact.

Goals

"This questionnaire explicates the different aspects of negation that should be covered in the description of the domain of negation in a language. The questionnaire itself does not explain very deeply the typology of the different subdomains of negation of give examples. The questionnaire meant to be used together with typological literature (e.g. Miestamo 2007, in press)." (Miestamo, 2016: 1)

Protocol summary

"The questionnaire starts from function and asks what the formal constructions expressing these functions are in each language". (Miestamo, 2016: 1)

It is divided in four parts, themselves divided into sections :

1. The language (basically, the metadata).
2. The clausal negation.
3. The non-clausal negation.
4. Other aspects of negation (such as the scope of negation or the negative polarity).

Development context

This is a revised version of the negation questionnaire originally published in Miestamo et al. 2015. (Miestamo, Matti, Anne Tamm & Beáta Wagner-Nagy. 2015. Negation in Uralic languages. Typological Studies in Language 108. Amsterdam: Benjamins.)

Practical details

Perceived need for an interactive archive for linguistic tools for data collection/comparison.
Free access and download of materials. Registration only necessary when adding new content.
List of useful references on fieldwork.
Archive is English-French bilingual in interface.

Two actions possible:
Search for a Questionnaire & Add new content
(requires registration on website)

New Questionnaire file

- Classic metadata
- Questionnaire name
- Author
- Publication date
- + Relevant categories (for classification; selected from menu)
- + text boxes for Goals, Usage protocol, Development context
- + text file (Word, PDF, etc); URL; bibliographical references
- + "how to cite this Questionnaire"

Adding new content

- New Questionnaire
- Questionnaire history
- Review
- Revision/adaptation
- User comments

Cette section vous permet de mettre en ligne une version éditée ou révisée d'un questionnaire pré-existant, de décrire les modifications apportées ainsi que le contexte de révision.

Sélectionnez le questionnaire d'origine afin de le lier à la version révisée. Pour sélectionner un questionnaire dont les métadonnées ont été remplies en anglais, changer la langue de l'interface.

Révisions
Describe the changes you have made to the original and the context for making these changes (adapting material to a different linguistics area, modifications to reflect recent developments in typological theory, etc.). These comments will appear as "Notes" in the Revisions section of the file for the original questionnaire.
